DSA Probblem Statemetn Topic Wise (Including Leetcode Statement)

Date:- 17/8/26

Topic	Pbm No	Programming Statement	Leetcode Pbm No
Recursive Function	1	1. Factorial of given no	
	2	2. Find out fibonacci series	509
	3	3. Check given no it is power of two or not	231
	4	4. Check given no it is power of four or not	342
	5	5. Find out trailing zeroes in factorial	172
	6	6. Find Kth character in string game -I	3304
Array	7	1. Initalize and display the array elements	
	8	2. Search an element by using linear search	
	9	3. Sorting using bubble sort	
	10	4. Sorting using Insertion sort	
	11	5. Sorting using Selection sort	
	12	6. Find the largest/smallest ele from given array	215
	13	7. Check given array is sorted or not	
	14	8. Remove the duplicate ele from sorted array	26
	15	9. Find out second largest and smallest element from the array	215
	16	10. Sorting array elements using Merge Sort	
	17	11. Shifting array element to left by 1 position	
	18	12. Search element using binary search	
	19	13. Find out the majority element from the array The majority element is the element that appears more than ⌊n / 2⌋ times.	169
	20	14. **Move zero's** Given an integer array nums, move all 0's to the end of it while maintaining the relative order of the non-zero elements.	283
	21	15. Find the missing number in array	268
	22	16. Count Maximum Consecutive One's in the array	485
	23	17. Two Sum : Check if a pair with given sum exists in Array	1
	24	Plus One Problem	66
	25	Merge Sorted Array	88
	26	Intersection of two array	349
	27	Relative Rank	506
2 D Array	28	1. Row with maximum ones	2643
	29	2. Find the row index that hax max sum of element	
	30	3. Return the column index that has max sum of ele	
	31	4. Return the column index that has maximum even no	
	32	5. Searching element in the 2D matrix	
	33	6.Search an element in 2D matrix with O(log(n*m)) complexity	74
	34	7. Search in 2D matrix II	240

DSA Probblem Statemetn Topic Wise (Including Leetcode Statement)

Date:- 17/8/26

Topic	Pbm No	Programming Statement	Leetcode Pbm No
	35	Island Perimeter	463
String	36	1. Display the string value char by char	
	37	2. Display the string in reverse order char wise	
	38	3. Display the string in reverse order word wise	
	39	4. Find out the how many times char are occurred of the given string	
	40	5. Find out the which char occurred maximum in given string	
	41	6. Find out the no of vowels and consonant from the given string	
	42	7. Check the given string is palindrome or not
